Behind These Words

[Verse 1]
I live under that rock
Missing headlines and trends
I don't know all your battles
But I know how grace begins
In a quiet hangar morning
With a prayer inside my chest
I learned faith in the hard hours
And He carried me the rest

[Pre-Chorus]
Then You asked me to be honest
Not a shadow, not a pose
When the room got cold and close
You held me through the blows

[Chorus]
Behind these words
You'll find my heart
I am who I am
I won't hide in the dark
Behind these words
You can see the scars
God made room for truth
And He kept me through it all
(through it all)

[Verse 2]
They sent me out the doorway
From the table and the light
For the name I wouldn't bury
For the life I knew was right
So I knelt there in the silence
With my Bible open wide
And I asked the Spirit plainly
"Show me what You want inside"

[Pre-Chorus]
Then You asked me to be honest
Not a shadow, not a pose
When the room got cold and close
You held me through the blows

[Chorus]
Behind these words
You'll find my heart
I am who I am
I won't hide in the dark
Behind these words
You can see the scars
God made room for truth
And He kept me through it all
(through it all)

[Bridge]
I don't have every answer
I don't wear a flawless crown
But I have walked through fire
And I still won't bow down
If my poems feel like shelter
If my songs can make you breathe
Then let the broken parts
Be the place You meet me

[Final Chorus]
Behind these words
You'll find my heart
I am who I am
I won't hide in the dark
Behind these words
You can see the scars
God made room for truth
And He kept me through it all
Behind these words
I'm standing tall
No shame left on my tongue
Just a grateful song for all
(through it all)
